

SERVICE INVOICE

Cinematic Video Production & Luxury Showcase Package

Full-scale cinematic video production — 80+ generation passes, 26 master versions, custom orchestral scoring, 4K delivery, CDN upload, and complete website integration across 4 pages.

PREPARED FOR
Contour Marine

DATE
September 2, 2026

INVOICE #
CM-2026-005

DUE
Upon Receipt

This invoice covers a **full-scale cinematic video production session** spanning 3 working days for Contour Marine. Two broadcast-quality marketing videos were produced from scratch — a **4K vertical master** featuring real client footage of the Indian Creek Police Department dock project, and a **full HD horizontal service showcase reel** covering every service line. Work included 80+ video generation and processing passes, 26 master edit iterations, custom royalty-free orchestral scoring, frame-by-frame QC audits, CDN upload, and complete integration across the Contour Marine website. **Production credit costs were paid upfront and are documented below.**

SCOPE OF WORK

Services Performed

TASK	DETAILS	AMOUNT
DELIVERABLE 1 — 4K VERTICAL MASTER (INDIAN CREEK POLICE DOCK)		
Real Footage Treatment & Clip Selection Reviewed and selected the best real client footage clips from the Indian Creek Police Department dock project — dock walk, police boat, seawall perspective, and piling detail. Each clip was processed through professional video enhancement software to improve quality while preserving authentic real footage. All clips are genuine project footage treated for cinematic quality.	4 real clips enhanced	\$175
Cinematic Intro & Outro Brand Animation Built a locked cinematic intro badge animation and a marine-life-filled ContourMarine.com outro. Both were rendered through multiple versions until brand-perfect — logo undistorted, all text readable, animation smooth from frame zero. 7 intro/outro versions rendered before final approval.	7 versions rendered	\$120
Custom Orchestral Score & Audio Mix Composed a custom royalty-free luxury marine orchestral score using professional music production software — soft grand piano lead, warm cinematic strings, subtle low orchestral swells. Score synchronized precisely to the video timeline. Perpetual commercial license — safe for website, social media, and paid advertising use forever with no recurring fees.	Perpetual commercial license	\$110
Assembly, Color Grading & 4K Master Export Full post-production pipeline assembly with ARRI teal-amber LUT color grading, cross-dissolve transitions, audio	2160×3840 · 24fps · CRF15	\$95

TASK	DETAILS	AMOUNT
crossfades, and stabilization. Upscaled to true 4K (2160×3840) at 24fps. Exported at visually lossless quality. Final runtime: 46 seconds. Final review rating: 10/10.		
DELIVERABLE 2 — FULL HD HORIZONTAL SERVICE SHOWCASE REEL		
15 Cinematic Hero Clips — Production & Selection Produced 15 unique cinematic hero clips from Contour Marine's own project imagery — covering every service line: seawalls, docks, decks, boat lifts, and pilings. 5 clips were flagged during QC review and removed or replaced after failing quality standards. 80+ production passes executed across the full session to achieve 15 approved final clips.	80+ renders · 15 approved	\$320
3D Brand Intro & Animated Outro 8-second 3D beveled Contour Marine logo intro with marine-life-filled serif service reveal (SEAWALLS · DOCKS · DECKS · BOAT LIFTS · PILINGS). 8-second branded outro with ContourMarine.com letters filled with animated sealife. Multiple render versions produced until all text was correctly spelled, logo undistorted, and animation seamless.	3D animated · multi-version	\$130
Custom 72-Second Orchestral Score Composed a continuous 72-second royalty-free luxury marine orchestral score to run the full length of the showcase reel using professional music production software. Two music track versions produced — 30s bed and 72s continuous bed. Instrumentation matches the vertical master for brand audio consistency across both videos. Perpetual commercial license included.	72s continuous · perpetual license	\$110
26-Version Edit Cycle & Post-Production	26 master versions · 1920×1080	\$140

TASK	DETAILS	AMOUNT
26 master versions built (v1 through v26) over 3 working days. Each version involved full post-production pipeline rebuilds with cross-dissolve chains (0.4–1.0s), audio crossfades, black-frame elimination, duplicate scene removal, hard-cut smoothing, and transition smoothness review across 16 transition points. Final runtime: 76 seconds. Final review rating: 10/10.		
QUALITY CONTROL & FRAME AUDITS		
12+ Full Frame-by-Frame QC Reviews 12+ full QC review passes across both masters using professional frame and video analysis tools. Reviews covered: transition smoothness (16 transition points per pass), duplicate scene detection, off-brand clip identification and removal (5 clips flagged and removed), unwanted element detection, music seamlessness verification, spelling verification on all badge text, and logo integrity verification (undistorted, all text readable).	Professional QC · 12+ passes	\$100
CDN UPLOAD & WEBSITE INTEGRATION		
Bunny CDN Upload & Player Configuration Both final master videos uploaded to Bunny Stream CDN (Library ID 728358). Player settings configured: autoplay, loop, muted, preload, no poster thumbnail, playsinline for Safari/iOS compatibility. Verified both videos processing correctly and live on CDN before integration.	Bunny Stream · Library 728358	\$45
4-Page Website Integration & Deployment Built video sections across 4 pages: horizontal showreel on homepage, Indian Creek vertical on docks page (with government contract badge, credential copy, and stat callout), seawall build video on seawalls page, original dock video on	4 pages · GoDaddy deployed	\$155

TASK	DETAILS	AMOUNT
------	---------	--------

about page. All iframes configured with hardcoded inline dimensions to prevent GoDaddy container override. Added teal glow frames, radial background glow, pulsing unmute nudge, and government credential badge on docks page. Safari/iOS playsinline fix applied. All files committed to GitHub and deployed to GoDaddy.

4K Vertical Master — Indian Creek Police	\$500
Horizontal Service Showcase Reel	\$700
QC Audits & Frame Analysis	\$100
CDN Upload & 4-Page Integration	\$200

TOTAL DUE

\$1,500

TRANSPARENCY BREAKDOWN

Producer Cost vs. Profit — This Project

All production software credits, subscriptions, and processing costs for this project were **paid upfront out of pocket** by the producer before any deliverable was complete. The breakdown below shows exactly where the \$1,500 goes.

Hard costs include all software subscriptions, processing credits, music licensing, and production tools consumed exclusively for this project — documented below via platform ledger exports tagged "Contour Marine video master assembly." Three subscription refills were purchased during the production window to complete the work.

SAVE ON FUTURE WORK

Monthly Maintenance Plans

Lock in priority support and ongoing updates at a predictable monthly rate — covering video production, website updates, new sections, photo upscaling, and CDN management.

\$350 / month

Essentials Plan

- ✓ Up to 3 hours of updates per month
- ✓ Photo uploads & gallery updates
- ✓ Text & content edits
- ✓ Priority response within 24 hours
- ✓ Monthly GitHub backup

★ **MOST POPULAR**

\$550 / month

Growth Plan

- ✓ Up to 6 hours of updates per month
- ✓ New sections & page additions
- ✓ Video editing & CDN uploads
- ✓ Photo upscaling included

- ✓ Priority response within 12 hours
- ✓ Rollover unused hours (1 month)

PAYMENT

Payment due upon receipt via **Zelle** to **lg.blueprintsolutions@gmail.com**. Please reference invoice number CM-2026-005.

DELIVERABLES

Two broadcast-quality master videos — 4K vertical (46s) and Full HD horizontal (76s) — uploaded to Bunny CDN and embedded live across 4 pages on ContourMarine.com.

MUSIC LICENSE

Both custom orchestral scores are royalty-free with **perpetual commercial license** — safe for website, social media, and paid advertising with no recurring fees.

FILES & SOURCE

All website files committed to GitHub (legna0801/Contour-Marine-Website) and deployed live on GoDaddy. index.html, docks.html, seawalls.html, about.html, styles.css updated.
